## HOTWHEELS CARS

Hello Boys and Girls! Its year 3 and its at its end! Its been a great year with the club and the DSC3, There was a bump or 2 along the way but Its all been for the betterment of the club and I am looking forward to a super great 4<sup>th</sup> year.

This was a GREAT meeting We did a lot and were done before 10pm! Thanks to Greg Wann for hoisting the meeting and for the great Demo on mold making it was pretty interesting. I also would like to thank Dick Ihrig for his very nice kit and magazine donation to the club. It will be well used to build up the club funds! Its to bad we are loosing Dick to the East coast. We had a really large member turn out and that was great to see, Hal made it back from across the pond...(can you believe they let him back into this country!) He didn't bring us back any models or anything not-even some Salt & Vinegar chips! Hey just kidding Hal and welcome back.

The Theme for the monthly build was HOTWHEELS, Not a lot of cars on the table...I was expecting a few more but 3 good cars on the table. I liked Greg's Chrome Mustang...I got to get me one of those! There was a 2 way tie between Bernie and his Original Batmobile and Greg and his Chrome Boss Hoss car. But yours truly won first place with my 69 Camaro SS396 Convertible.

We also had our year end voting to do after the monthly theme was over, Again there was a multi way tie between 4 cars, But Dan Baker came out as the 2006-2007 champion with his 57 Chevy panel Rescue 8 truck. Congrast to Dan! And nice job by Bernie for getting the awards together in short order they look really nice.

This Newsletter will have the new build themes in it for next year, so make sure you check them out, Sept. will be builders choice, there is going to be some pretty cool builds for this next year. Its going to be a fun 4<sup>th</sup> year. Also check out the meeting location page to see where we will be doing the meetings. We still have a couple openings for the last couple months if you want to hoist a meeting just pick a month and let me know (Dave Wilmore at [davewilly@hotmail.com](mailto:davewilly@hotmail.com)) and I will put your name on the list.

For the Sept. meeting we will also be doing a Auction for some of the items Dick donated to us so bring some cash!!!! Its also the start of the new year so the club due's are... well Due! They will remain at the same \$15.00 So see Bernie to get sign up the the next year. We will have a new club website up and running here in the next month or 2. Brian Neal & his wife

will be setting that up. We should also talk about possibly getting a T-shirt order together for this year. Maybe we can order a ½ dozen extra to post on the website for sale and see how that goes. It was something we had talked about before and might be a good trickle income for the club...we sell one shirt a month it will pay for the shirt & the website for the month.

We have a couple Local shows coming up as well. The Goodguys show is Nov. 16-18 2007 and the Arizona NNL is Oct. 27, 2007 Both should be pretty good shows and they are here in town.

Any one have a demo they want to see or show just let it be known at the next meeting. Also don't forget about project cars or new detail parts or resin items to tell about during the meeting as well. After all the club is about sharing what we know or find out about so others can enjoy it as well.

The next meeting will be at Tom Nue's House at 7:00pm on Sept. 12<sup>th</sup> .

See ya all there!

**Dave**
